MEMORANDUM FOR: Deputy Director for Science & Technology

Bud:

I doubt that I need to hold the attached papers. I note that a copy was sent to DD/S, and I have suggested to him that he get together with you to discuss Joe Becker's recommendation in paragraph 8 of his memorandum.

I shall be glad to participate further if I am needed; but insofar as this particular problem is concerned, if you and Bob agree that Joe's recommendation is a good idea, I see no reason why you cannot go forward with it without a directive from me.
